

Web Technologies Lab

Lab 07**Marks 100****Instructions**

Work on this quiz/lab individually.

You are **NOT** allowed to use internet, mobile phone.

You are **NOT** allowed to borrow anything from your peer student.

What you have to do

Program the following tasks. The name of your files will be according to the task given in this lab.

Task**[100]**

You already have designed the following **signup** and **login** forms in the last lab. Apply JavaScript to validate the user input in the following way:

- All the fields are necessary and must be filled.
- Email shall be in the proper format (e.g., X @ Y . Z).
- Phone, Fax, and Zip code shall be numeric only.

Instructions:

- To display an error, create a **div** in front of each input field and set/assign an error to it if the aforementioned criteria don't match. A sample text would be
`document.getElementById('div_id').innerHTML = "error Message";`
- You need to check each of the fields and display all the errors once.
